

Hussain Touhid

Austin, TX | (512) 787-2352 | htouhid@yahoo.com | linkedin.com/in/htouhid

SUMMARY

Senior UI Developer and Frontend Engineer with 12+ years of experience designing and developing responsive, accessible, high-performance web applications and consumer-facing digital experiences. Extensive expertise in JavaScript, TypeScript, HTML5, CSS3/SCSS, Angular, AngularJS, responsive web design, component-based UI development, and enterprise content management platforms. Proven experience delivering large-scale customer-facing websites and applications for global brands, including General Motors, Chevrolet, Marriott, and UPS Capital. Strong background in WCAG accessibility, cross-browser compatibility, frontend performance optimization, reusable UI architecture, REST API integration, Agile development, and close collaboration with UX, product, marketing, content, QA, and backend teams.

EXPERIENCE

Lead Application Developer

Sep 2023 – Present

UPS Capital

Atlanta, GA / Remote

- Lead frontend development of UPS Capital's Digital Wallet platform, delivering responsive and customer-focused financial experiences using Angular, TypeScript, JavaScript, HTML5, SCSS, RxJS, and NgRx.
- Design and develop reusable UI components and application features for transaction history, rewards, wallet balances, payments, account management, and customer preferences.
- Translate product and UX requirements into responsive, accessible, and scalable web interfaces across desktop and mobile experiences.
- Collaborate closely with UX designers, product owners, business stakeholders, backend developers, and QA teams throughout design and development cycles.
- Integrate secure REST APIs and dynamic data services into customer-facing application experiences.
- Improve frontend performance, usability, accessibility, and application reliability through continuous optimization and testing.
- Modernize frontend architecture using Angular Signals and scalable state-management and component-design patterns.
- Ensure UI implementations follow accessibility standards and responsive design best practices.
- Implement and support CI/CD deployment pipelines using Azure DevOps across Dev, QA, UAT, and Production environments.
- Provide frontend technical leadership through architecture discussions, code reviews, mentoring, troubleshooting, and development standards.

Senior Software Engineer / AEM Frontend Developer

Apr 2016 – Aug 2023

General Motors

Austin, TX

- Developed and maintained large-scale, consumer-facing digital experiences for General Motors brands, including Chevrolet, GM Owner Center, and international GM websites.
- Built responsive and reusable web components, templates, and content experiences using JavaScript, TypeScript, HTML5, CSS/SCSS, AngularJS, Angular, and Adobe Experience Manager (AEM).
- Translated UX designs and business requirements into polished, responsive web experiences supporting customers across desktop, tablet, and mobile devices.
- Developed dynamic AngularJS and Angular frontend components integrated with AEM and backend services to deliver real-time customer and vehicle information.
- Worked closely with UX, content, marketing, product, development, and global business teams to deliver consistent digital brand experiences across multiple markets.
- Improved website performance through frontend optimization, asset optimization, reusable component architecture, and page-load improvements.
- Supported accessibility initiatives and implemented UI solutions aligned with WCAG and enterprise accessibility requirements.

- Developed and maintained AEM components, templates, workflows, DAM integrations, and content-management solutions using AEM 6.2, 6.4, and 6.5.
- Worked extensively with Adobe Experience Cloud and Adobe Analytics in support of customer-facing digital experiences.
- Helped modernize legacy frontend applications by migrating AngularJS implementations to newer Angular architectures, improving maintainability, scalability, and performance.
- Supported cross-browser and cross-device compatibility across high-traffic consumer websites.
- Participated in Agile/Scrum development, sprint planning, backlog refinement, technical design discussions, code reviews, and release activities.

Lead UI Developer

Jun 2014 – Feb 2016

Verizon Telematics

Atlanta, GA

- Developed responsive customer-facing web portals and fleet-management applications using AngularJS, JavaScript, HTML5, CSS3, Bootstrap, and jQuery.
- Converted UX wireframes and visual designs into reusable, responsive UI components and web templates.
- Implemented cross-browser compatible interfaces supporting desktop and mobile users.
- Collaborated with UX, backend, product, and QA teams to deliver scalable customer-facing applications.
- Developed reusable frontend patterns that improved UI consistency and maintainability across applications.
- Participated in frontend testing, troubleshooting, performance optimization, and Agile development activities.

Senior UI Developer

Jun 2012 – Jun 2014

Accenture

Client: Marriott International | Bethesda, MD

- Developed responsive customer-facing web experiences for Marriott.com and related Marriott digital properties.
- Converted visual designs, wireframes, and business requirements into production-ready web pages using HTML5, CSS3, JavaScript, and jQuery.
- Built responsive interfaces supporting customers across desktop, tablet, and mobile devices.
- Worked with UX designers, developers, content teams, and business stakeholders to deliver consistent digital experiences.
- Implemented reusable UI patterns and frontend functionality while maintaining cross-browser compatibility and web standards.
- Supported testing, troubleshooting, UI optimization, and production releases for high-traffic consumer web experiences.

TECHNICAL SKILLS

Frontend Development: JavaScript (ES6+), TypeScript, HTML5, CSS3, SCSS/SASS, Angular, AngularJS, RxJS, NgRx, Bootstrap, Tailwind CSS, jQuery

UI & Responsive Design: Responsive Web Design, Mobile-First Development, Reusable UI Components, Cross-Browser Compatibility, Design System Implementation

Accessibility & UX: WCAG, Section 508, Web Accessibility, Semantic HTML, Responsive UX, Figma, Adobe XD, Axure RP

Web & Content Platforms: Adobe Experience Manager (AEM 6.2–6.5), Adobe Experience Cloud, DAM, Content Management Systems

Performance & Quality: Frontend Performance Optimization, Page Load Optimization, Browser Developer Tools, Jasmine, Karma, Jest, Accessibility Testing

APIs & Integration: REST APIs, JSON, XML, Node.js, .NET, Java/J2EE

DevOps & Collaboration: Git, Bitbucket, Azure DevOps, CI/CD Pipelines, Jira, TFS, Jenkins, Agile/Scrum

Databases: Oracle, MySQL, MongoDB, SQL Server

TECHNICAL EXPERTISE

Languages & Web: JavaScript, TypeScript, HTML5, CSS3, SCSS/SASS, JSON, XML Frameworks: Angular, AngularJS, RxJS, NgRx, Bootstrap, Tailwind CSS, jQuery CMS / Digital Experience: Adobe Experience Manager

(AEM), Adobe Experience Cloud, DAM UX / Design: Figma, Adobe XD, Axure RP, Responsive Design, Mobile-First Design Accessibility: WCAG, Section 508, Semantic HTML, Accessibility Testing Testing: Jasmine, Karma, Jest, Chrome DevTools DevOps / Tools: Git, Bitbucket, Azure DevOps, Jenkins, Jira, TFS, CI/CD Backend / Integration: REST APIs, Node.js, .NET, Java/J2EE Databases: Oracle, MySQL, MongoDB, SQL Server

PROFESSIONAL STRENGTHS

Frontend Architecture • Responsive Web Development • Consumer-Facing Digital Experiences • UI Component Development • Web Accessibility • Performance Optimization • Cross-Browser Compatibility • UX Collaboration • Enterprise Web Development • Agile Delivery • Technical Leadership • Mentoring & Code Reviews
